### MINIBAR 50L

|                                                 |                           |
|-------------------------------------------------|---------------------------|
| Reference                                       | AMS-MBAC50G               |
| External Dimensions (mm) Width x Height x Depth | 445x490x465               |
| Door material                                   | Glass                     |
| Refrigerant                                     | R600a                     |
| Climate type                                    | ST/N                      |
| Cooling temperature                             | 4-14°C                    |
| Freezer cooling temperature                     | -4-0°C                    |
| Volume (l)                                      | 50                        |
| Freezer Capacity (l)                            | 5                         |
| Rated voltage / frequency                       | 110V/60Hz / 220-240V/50Hz |
| Input power (W)                                 | 67                        |
| Power consumption(kW .h/24h)                    | 0.5                       |
| Color                                           | White / black             |
| Loading Qty. 20'/40'/40HQ'                      | 220 / 440 / 549           |

#### Details of MINIBAR 50L

#### Packing Information

|                       |             |
|-----------------------|-------------|
| Psc per carton        | 1           |
| Carton size (mm)      | 465x560x535 |
| Net/gross weight (kg) | 18/20       |
